

Simply Exceptional.

TW Compact - Carpet Extractor

Compact and Powerful!

100" Waterlift

13" Cleaning path

Simple switch controls

Compact Bladder System

True Forward and Reverse brush action

TW Compact

The Exceptional Carpet Extractor

This exceptional carpet cleaning machine features **True Forward and Reverse brush cleaning operation**. The **TW Compact's** Cylindrical brush is gentler on carpets than rotary brushes, but just as effective at loosening up and removing dirt from carpets of any kind.

Our **Unique Bladder System** enables the **TW Compact** to be super compact by utilizing the same space for both clean and recovery water, so a smaller footprint is needed to attain beautiful results while being easy to transport and store.

The **TW Compact** is the ideal machine for **professional cleaning of large areas**. Also clean corners, edges and stairs with optional adapter connection.

True Forward and Reverse cleaning action!

Cylindrical Brush
Gentler on carpets — just as effective as rotary brushes.

Bladder System

Tank-in-tank bladder design allows for a more compact machine.

Clean water goes in bladder then transfers to outer tank creating equal water displacement.

Exceptional Brush

True Forward and Reverse cleaning action!

Deep cylindrical brush is gentler on carpets but just as tough on dirt and stains.
